## People in the news...

By AL POST  
MCN Staff Writer

Two 1995 John Glenn High School graduates have completed their basic military training at Lackland Air Force Base in San Antonio, Tex.

The two new Airmen are **Ryan A. Cretens**, son of Mary K. Glasgow and step-son of Frank W. Cox of Canton, and **Brian W. Kolb**, son of Raymond E. and Brenda M. Kolb of Westland.

During their six weeks of training, the pair studied the Air Force mission, organization and customs and received special training in human relations.

They also earned credits toward an associate's degree through the Community College of the Air Force.

Newlyweds Lana and Jack Evans (at left) are joined by their best man August Worch and maid of honor Honor Raymond following their wedding at the Newburgh United Methodist Church of Westland. MCN Special Photo

**Jack Wheatley**, director of Michigan's Unemployment Agency, has been elected to the board of directors of the Interstate Conference of Employment Security Agencies. He will represent the upper Midwest states of Michigan, Illinois, Indiana, Minnesota, Ohio and Wisconsin.

Wheatley now will have a voice in helping shape the national workforce development policy.

**Michael P. Chekosky** of Westland and **William L. Chapman** of Romulus have joined the U.S. Army under the delayed entry program through the U.S. Army Recruiting Station in Westland.

Chekosky, a 1999 graduate of John Glenn High School, will report for duty at Fort Benning, Ga. on Nov. 18. He is the son of Janice M. and Michael K. Chekosky of Westland. He qualifies for a \$3,000 enlistment bonus.

Chapman, a 1999 graduate of Romulus High School, will report to Fort Jackson in Columbia, S.C. on Nov. 4. He is the son of Dianne E. and William L. Chapman of Romulus.

**Audrey D. McKenzie**, a veteran of 20 years of early childhood programs, has been named the new director of the Wayne County Head Start program.

She is being assisted by Vanessa Milton and Michael Johnson.

Wayne County's program is one of the top five largest programs in the Midwest.

## Alifirenko & Evans united in marriage

By AL POST  
MCN Staff Writer

Lana Alifirenko and Jack Evans, both of Westland, were married Sept. 29, 1999 at the Newburgh United Methodist Church. Pastor Tom Badley presided.

The bride's mother, Kira Von Kotzebey, currently resides in the Ukraine. The groom's parents, John and Florence Evans, reside in Westland.

The maid of honor was Honor Raymond, a friend of the bride.

## Romulus man wins lottery

An anonymous Romulus man - who works at Ford Motor Company -- has won \$100,000 in the Michigan Lottery's Cash 5 game.

The successful lottery player matched all Cash 5 numbers with an easy pick ticket. The winning numbers were 4, 8, 26, 29 and 32.

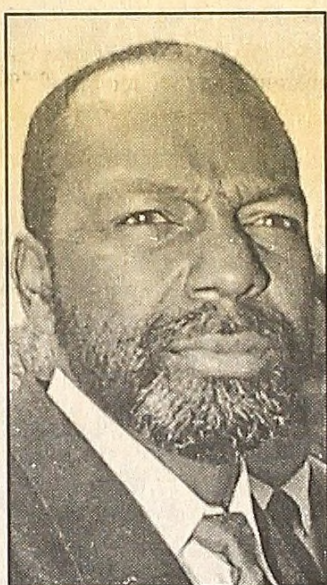

The lucky man said he has been playing the Lottery for 27 years. He plans to help his children pay some of their bills and will invest the rest.

He purchased his winning ticket at a party store in Wixom.

He added that he and his wife are not usually "big spenders."

"I knew the ticket was a winner as soon as I saw the winning numbers. We have both been very nervous ever since."

His favorite Lottery games are Michigan Lotto, The Big Game and of course Cash 5.

The Rev. Arthur C. Willis, pastor of the Missionary Baptist Church, has accepted the presidency of the Romulus Ministerial Association. The RMA is also sponsoring a Community Thanksgiving Service at 7 p.m. Nov. 19 at the Community United Methodist Church. Pastor William Kren of the United Methodist Church will bring the message that night.

## Barbera to visit

**Joseph Barbera**, co-founder of Hanna-Barbera Inc. animated entertainment forces, will visit Park West Gallery in Southfield from 8 to 9:30 p.m. tomorrow.

A collection of the Hanna-Barbera drawings, lithographs and hand painted limited editions will be on display through Nov. 14.

# Chaplain to assist

Annapolis Hospital Chaplain Ronald D. Warner is offering to work with Romulus pastors during family crises and other emergencies impacting pastors' church families.

Warner met with pastors recently and offered to set up a seminar in the future at the Wayne hospital site to aid religious leaders before such crises develop.

## NOTICE

Please be advised, pursuant to Article 6 Section 6.5 of the Romulus City Charter and P.A. of 1976, Michigan Open Meeting Act, Romulus City Council will be available to meet with the general public on an informal basis on the second Monday of each month at 7:00 p.m. in the Romulus City Hall Council Chamber 11111 Wayne Road, Romulus, Michigan.

For the remainder of the year the schedule is as follows:

October 11, 1999  
November 8, 1999  
December 13, 1999

Linda R. Choate, CMC, Clerk  
City of Romulus

Publish: October 14, 1999

## THIS IS AN OPEN MEETING!

## CITY OF ROMULUS CITY COUNCIL PUBLIC HEARING

Please be advised, that the City of Romulus City Council has scheduled a Public Hearing to be held Monday, November 1, 1999 at 7:00 p.m. Prevailing Eastern Time in the Romulus City Hall Council Chambers, 11111 Wayne Road, Romulus, Michigan 48174-1485. The purpose of the meeting is to hear comments on the proposed special assessment district for the lighting of Sidney Road between Wayne and Grant roads.

All interested citizens are encouraged to attend and will be given an opportunity to comment on said request. Written comments may be submitted until 12:00 noon, Monday, November 1, 1999 and should be addressed to Linda R. Choate, Clerk, City of Romulus, 11111 Wayne Road, Romulus, Michigan 48174-1485.

**HALLOWEEN SOUP** productions are slated Fridays, Saturdays and Sundays thru Oct. 31

## Westland church to mark its 5th year on Sunday

By AL POST  
MCN Staff Writer

The Church of the Risen Lord of Westland that has grown from eight persons to over 60 persons will be celebrating its fifth anniversary this Sunday.

The regular church service will be held at 10 a.m. followed by an ice cream social that will be marked with fellowship and reminiscing, Pastor Kenneth R. Bieber revealed.

The Rev. Deacon William C. McNeil of Belleville said the church began on Oct. 16, 1994 in a Canton living room.

During the first two years the church operated at the Griffith Funeral Home in Canton, Madonna University and the Disabled American Veterans Hall at Joy and Newburgh Roads (now a drug store).

The stated purpose of the church is to create a "healing and worshipping community of Christians, who are led and

empowered by the Holy Spirit."

Three years ago the congregation purchased an existing church building at 821 N. Newburgh Road, between Cherry Hill and Ford Roads in Westland.

It previously had been the home of the Bible Baptist Church and then St. Michael's Catholic Melkite Church.

As part of the International Communion of the Charismatic Episcopal Church, uses the form of the apostles -- which means the worship is charismatic, evangelical, sacramental and liturgical.

It stresses serious involvement by church members including prayers, scripture reading, singing, teaching, healing and other ministries.

Since acquiring the church building, members have made certain modifications including a nursery and Sunday school class area.

at the Marquis Theatre, 135 E. Main St. Show depicts a creepy lawyer, plots to evict a ghou from her mountain retreat and the ghou's plans to marry off her daughters. Tickets cost \$6 and the theatre is located at 135 E. Main St. in Northville. For more information call 248-349-8110.

**43RD ANNUAL ROMULUS FIREMAN'S BALL** is slated from 7 p.m. Oct. 23 to 1 a.m. at the Knights of Columbus in Wayne. Cost is \$40 a couple and \$20 a person. Event includes dinner, dancing and door prizes. For tickets call 734-722-4164.

## HAUNTED FOREST

# Inkster Good News

MICHIGAN COMMUNITY NEWSPAPERS

When Inkster residents Sonya and Kenneth Poellnitz decided they needed a larger home, they did not move to Canton Township or Southfield or Bloomfield Hills. They purchased a beautiful brick, three bedroom, tri-level home in the City of Inkster, on a spacious corner lot. Photo by Theola Jones.

## Professional couple believe in the city

By THEOLA JONES  
MCN Special Writer

When Inkster residents Sonya and Kenneth Poellnitz, a young professional couple, made the decision to move to a larger home, they did not choose Canton Township or Southfield, or Bloomfield Hills or Bingham Farms.

The Poellnitzs decided to purchase a home in the City of Inkster.

The parents of three sons, two are still living at home, did

families to purchase one of the beautiful homes that is located

*The Poellnitzs decided to purchase a home in the City of Inkster.*

not want to leave Inkster, they wanted a new home in the city. They are among the fortunate

in the southeast section of the city.

With certain custom speci-

cations in place, the couple has moved into a beautiful light brick, with a front bay window, tri-level, three bedroom, two bath home on a spacious corner lot.

A renaissance is predicted for the City of Inkster, and the Poellnitz family and other new home owners are helping to make the prediction become a reality. Inkster is still their home. They could have chosen any city anywhere but they chose Inkster.

## Congregation honors pastor

By THEOLA JONES  
MCN Special Writer

The steps of a good man are ordered by God - Psalm 37:3.

That Psalm was the theme for the Third Anniversary Celebration sponsored recently

by the congregation of Womack Temple C.M.E. Church in Inkster, honoring their pastor, the Reverend Terrell A. Jackson.

Chairperson Dorothy Watkins and committee members selected the Karas House as the site for the very popular

and personable Pastor.

Earl Hardison presided over the program.

Other participants were Minister Franchella Foreman, Booker T. Dozier, Betty Clark, Bernice Ott, Rev. Joseph Stephens, Rev. Alexander Minor, Eva Thomas and Rev. Winston Douglas.

Resolutions were received from several elected officials, a delicious dinner was enjoyed by the guests, who sang *For He's A Jolly Good Fellow* following the meal.

The program finale was the singing of a song, (tune: *God Bless America*).

*God bless our minister, one that we love,*

*Stand beside him and guide him, through the night with the light from above.*

*God bless our minister, one that we love.*

Rev. Jackson meets everyone with a friendly and warm smile. He was overwhelmed with the outpouring of love by his members who showered him with gifts and well wishes.

Resolutions were received from U. S. Senator Carl Levin; Wayne County Commissioner Kay Beard and the Mayor Edward Bivens.

Bill Nagler, M.D.

## Mayor, Mehl must bury hatchet for sake of Westland festival

We were dismayed last week, when the feud between the Westland Festival people and the Mayor's office became public last week.

For those who did not read the story, the city administration is threatening to cut off all support of the festival because the festival organizers have refused to give firefighters and other nonprofit community groups affordable booth space rentals.

Unfortunately this is only the straw that has brought the feud public. These two factions, the festival committee lead by Ken Mehl, a mayoral candidate last year and an outspoken critic of the current administration, and Mayor Robert Thomas and his staff have been at odds over the festival and other matters for half a dozen years.

To have this feud now boil over and threaten the very existence of one of Western Wayne's premier summer festivals is tragic.

Westland has been kicked around for years as their affluent neighbors, Canton, Plymouth and Livonia have become the darlings of area developers. One of the few items Westland seemed to offer was a dynamic, event-filled festival that by our head count was better attended than the Canton Liberty Fest, Belleville Strawberry Festival or Wayne Wheelfest.

We don't know where the blame should be placed, but our guess is that both parties deserve a scolding. The Mehl faction and the Thomas group must set aside their differences and work together to make the festival even better. C'mon guys, drop the petty arguments, shake hands and place the festival first. The people of Westland deserve greater cooperation from their leaders.

Hopefully you didn't miss last week's farewell column from friend and philanthropist Percy Ross. He has been a staple on our editorial page for three years, doling out advice and money to many readers in the Western Wayne area.

Seventeen years ago, he set out to give away his fortune, nearly \$50 million he had made as a businessman. Through his newspaper column, he achieved his goal, giving out his last million this past month.

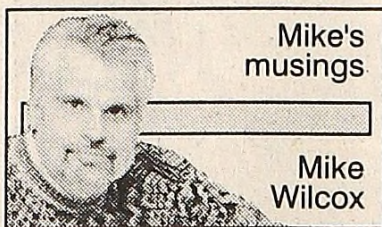

There are not many people I admire more than Ross. He could have used his money for personal gain. He could have willed it to his children. Instead he chose to give it to less fortunate people — people who were suffering from health or financial woes.

And he did it without anyone's help. He didn't seek matching funds from corporations. He didn't even charge for his weekly column. All he wanted to do was make people happy. And, man, did he ever succeed.

In his farewell, Ross said, "I'm going to miss this column, but I'll especially miss the relationship I've cultivated with you, my readers. You've given me so much over the years. In many respects, I'm far richer today than when I started."

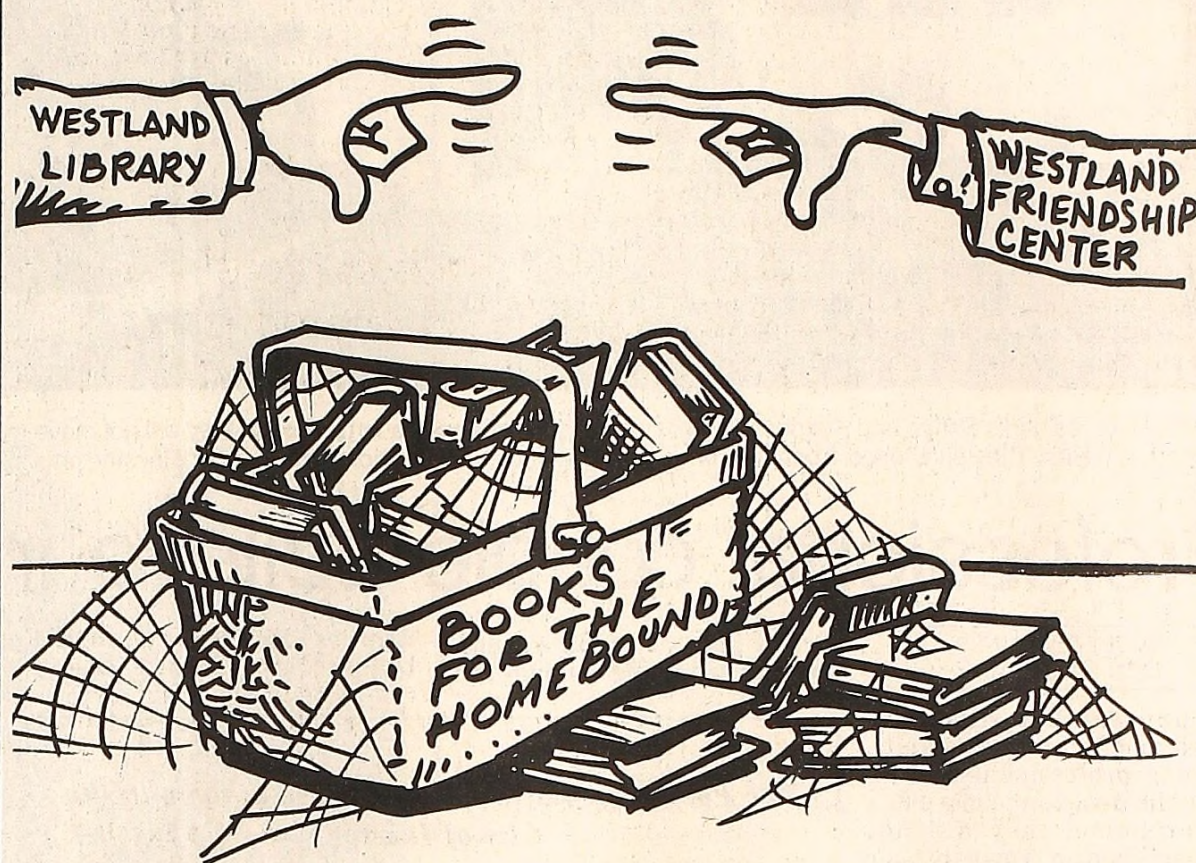

I disagree. We are the richer having known and read Ross's column for so many years has made me, and hopefully you, a much more giving person. Ross showed me the true meaning of the oft-repeated saying, "To give is better than to receive."

We wish you well Percy.

Mike's musings

Mike Wilcox

## Council campaigns need issues

Instead of cracking their eggs in their fancy omelet pans, several hundred angry Parisian chefs cracked them on the helmet-of-French riot police.

Police responded by blasting tear-gas soup at the egg-tossing chefs.

The occasion of this culinary exchange was a tax protest.

Anybody old enough to remember tax protests? I doubt it.

High taxes are no longer an issue in American politics, not this election season, not next. A pity, since Americans pay a higher percentage of their income in taxes, government fees, and regulatory costs than most Europeans, and get far less back in services. No healthcare. No vacations. Less safety.

That's why I admire ordinary French men and women. They fight for their rights, unlike their WWII army, which threw white flags at the first panzer tank.

Take the scrappy chefs, a group you'd never expect to battle riot police.

Wearing traditional toque hats and snazzy overalls, the chefs rallied against the rate of taxation for traditional French restaurants, which is much higher than that for fast-food outlets such as McDon-

Ivan Helfman

ald's.

McDonald's customers pay a 5.5 percent tax. Traditional French restaurants must pay 20.6 percent.

While Americans take their high taxes lying down, the chefs fearlessly lowered their toques and charged police barricades outside the French parliament to deliver a petition demanding a single tax for fancy restaurants and fry pits.

Eyes smarting, tears streaming, the chefs then marched on the nearby Socialist Party headquarters. Though having a conservative President, the socialist party controls the French parliament. The socialists favor fast-food restaurants' lower rates because the fry pits cater to the poor, and because many of their sales are carryouts, making them shops rather than restaurants and eligible for the lower rate which applies to shops and groceries.

"We're not protesting against fast-food restaurants," said one chef. "We're protesting against a tax system."

Likewise French farmers, students, and transportation workers have led protests that have prevented their government from pricing out family farms, dumbing down their schools, and eliminating retirement benefits. As a result of the mass protests, the French have been able to retain rights, privileges, and community values while we have lost them.

I bring this up in hopes that we can learn from the French in time for Wayne and Westland's November city council elections and next year's presidential primary elections. The lesson is that people can sometimes get what they want when they rally around issues instead of personalities and negative campaigns.

Even eggs tossed by a large united group in support of a credible issue can be effective. In contrast, circus and negative campaigns rarely accomplish anything.

With less than a month to go, it's time for the candidates to cut out the personal attacks and raise some issues in Wayne and Westland. Time to give the voters real choices. Time to accomplish something.

## Even in crisis times, Salvation Army's image may be weakening

While Salvation Army efforts in crisis torn areas may be just as strong as in years gone by — apparently its image with the public may be slipping.

It was quite evident to this writer earlier this year, when a column printed in the *Michigan Community Newspapers* asked, "Have ties between the international Salvation Army and the print/electronic media slipped in recent years because of the retirement of the World War II era personnel on both sides?"

For decades after World War II many military persons returned home and stressed their affection for the Army based on the donations it gave GIs overseas from 1941-45 and even beyond.

But this writer stressed that in recent months when natural and weather disasters hit across the U.S. and around the world, the key relief group flashed on screens and printed in newspapers was the American Red Cross.

Now a press release from the Salvation Army relates the next problem that usually follows a lack of communication from one side...namely a lack of donations from the other (called the public)."

To this writer — who also has served as a volunteer Salvation Army Advisory Board member for almost two decades — the Army's own recent press release should serve as a wake up call even if the earlier column did not.

The Army's efforts to aid Hurricane Floyd's victims were exhausted after serving a quarter of a million storm victims, the press release stated.

That in itself is not alarming, it only shows that the dedicated Army "soldiers and volunteers" were out in the trenches aiding the weary and wounded.

But — what is disturbing — is the press release statement that the Army's donation hot line —1-800-SAL-ARMY— was silent for extended periods of time during that critical period.

Was that because people have lost their heart for aiding the unfortunate? I don't think so.

It is more likely that in various areas of the U.S. — TV screens flashed only the Red Cross' hotline number — not the Army's.

Thus I renew my strong urgings that the Army review its public relations program — particularly in relation to the media during crisis times.

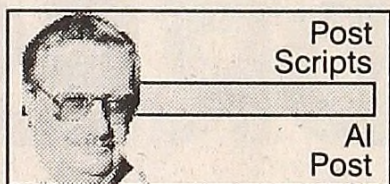

As a sideline to the media relationship issue — the Salvation Army this summer named its new top worldwide commander — called a general.

How many newspapers did stories on the elevation of the new general and the retirement of the old? The *Michigan Community Newspapers* did.

Can you name many others?

Can you imagine the media ignoring the naming of a new Catholic pope?

While there was no reported columns of white smoke arising into the heavens upon the selection of new Gen. John Gowans succeeding Gen. Paul Rader, it deserved more coverage nationally than it received.

## Johnson still says councilwomen "untruthful"

To the Editor:

At 9:15 a.m. on Tuesday, August 31, I delivered my letter to you. I pointed out that my last 3 paragraphs discussed a second question asked at the Forum held by the League of Women Voters in the Wayne Library: "If elected Councilperson would you vote to sell city-owned property without bids or appraisals?"

I told you that Councilwomen McEachern and Lentine had each replied, "No." I told you that was untruthful. They had voted to sell city property without bids or appraisals as shown in my document #7 in my private mailing.

You said you would need to have a discussion with them. That was OK with me. I did make a mental note that you did not extend that courtesy to Mr. Boertje regarding Mr. Marman's letter.

I called you later that day when I had learned the actual content of the hallway conversation between Mr. Marman and Mr. Boertje. You did agree to change my paragraph #6 to read, "...and I believe he meant Washington, not City Hall." I thank you for that.

You then stated there was a big breaking story in Inkster which you would like to print, and publish mine the next week. My reply was that I wanted it published at once or I would buy space in your paper.

You agreed to publish it but you made no indication of making a deletion of my paragraphs regarding the untruthfulness of answers given at the League of Women Voters Forum. When I say that deletion, my perception of the *Wayne Eagle* was that one rule applied to seated government officials and another to ordinary citizens. I then hastily prepared and mailed my documented letter to every Wayne voter.

Last year I attended the City Hall sessions of the politically engineered Kangaroo Court called the Wayne Task Force. That alerted me to possible internal problems within the "establishment" government of my city. Since then I have been paying much closer attention to my city government.

Sincerely,

Charles W. Johnson

## Dems blast Republicans for dumping on working families

To the Editor:

In the past few months Republicans in Washington have been making life difficult on working families across the country. Republicans have opposed raising the minimum wage, spent billions from the Social Security Trust Fund and want to delay the payment of the Earned Income Tax Credit. These actions affect almost every working family and especially hurt the working poor.

Democrats in the White House, U.S. Senate and the U.S. House want to raise the minimum wage from \$5.15 per hour to \$6.15. This would benefit nearly 12 million American workers. While Democrats fight to help working families, Republicans block progress on a minimum wage increase. Republican presidential candidates and GOP leaders in Congress are so obsessed with a tax cut for the rich that they don't have time to help working Americans. A report recently released by the Economic Policy Institute (EPI) and the Institute for Women's Policy Research (IWP) finds that about seven million women nationally - 12.6 percent of all working women - would benefit from the pay raise; nearly one million single mothers would benefit from the hike - 85 percent of which have household incomes below \$25,000; and employment rates for minimum wage workers have increased dramatically since the wage was last increased in 1996.

Despite repeated promises that they would no longer raid the Social Security funds for government spending, Republicans in Congress were caught

red handed by one of their own who blew the whistle on the GOP plans to spend billions of dollars from the Social Security Trust Fund to meet their spending goals for the upcoming year. In the new budget analysis the Director of Congressional Budget Office, a Republican appointee, demonstrated that Republicans writing next year's spending bills for government operations have already used billions of dollars beyond what they were supposed to spend under existing budget restrictions. Because the Republicans failed to complete their spending bills by the end of the fiscal year, there is no telling how much more Social Security money Republicans will spend before they finish.

Republicans are looking for creative ways to bankroll future tax cuts for its richest supporters; the latest plan is to delay payment of the Earned Income Tax Credit (EITC). This program started 25 years ago as a way to encourage poor people to work and pay taxes. Both Democrats and Republicans, including Ronald Reagan and Jack Kemp, have supported the EITC. Instead of receiving a single annual payment, Republicans would pay the credit monthly. According to the New York Times, the single payment enables working

families to pay for things such as tuition or a down payment on a car, but the Republican plan prevents that.

Working families should be outraged. These actions follow a long pattern of risky economic schemes put forth by Republicans. We need a minimum wage hike and Americans across this land need a Social Security system that will be there in the future. It is time Republicans are held accountable for their damaging actions.

Sincerely,

Mark Brewer,

Democratic Party Chair

## Legislators delivered emergency certification

To the Editor:

We are writing to inform your readers of a very important meeting that took place on October 4 in Lansing. Several educators from our area took time out of their busy schedules to meet with us and other state education policy makers to begin a dialogue on education issues.

The Education Workshop was attended by educators

from the following school districts: Van Buren, Wayne-Westland, Northville, Plymouth-Canton, Huron, Wayne RESA, and Livonia. In addition, several state leaders such as Art Ellis, Superintendent of Public Instruction; Representative Chuck Perricone, Speaker of the House; Representative Terry Geiger, Chair-House Appropriations Committee; and Representative Nancy Cassis, Chair-House Tax Policy Committee joined us for our discussion.

This workshop is the first in a series of such events which we will be conducting to actually improve our schools. Good constructive interaction, rather than confrontation, will help bring about positive results. In fact, one positive result has already occurred from this meeting. Superintendent Jim Richendollar of the Van Buren School District inquired about the need for emergency certification measures and was informed by Art Ellis that the Department of Education could grant his request right now, without legislation! The necessary action was taken and the desired result achieved.

Finally, we want to take a minute and thank those people who attended. The feedback we received after the meeting was very positive and we look

forward to future discussions.

Sincerely,

Loren Bennett,

State Senator

8th District

Thaddeus McCotter

State Senator

9th District

Bruce Patterson

State Representative

21st District

### Gum Disease: Getting That Bright Smile

**Question:** What is teeth bleaching and is it safe?

**Answer:** Many people who come to the dentist complain of teeth that are yellow or dark. They want to do something to bring back that bright smile they once had. In many cases, these people may benefit from a procedure commonly referred to as "bleaching." It is a procedure that consists of the dentist taking impressions of your teeth and making soft plastic trays which fit over your upper and lower arches. You are given a supply of hydrogen peroxide gel which you place in the trays and then wear them for several hours a day or sleep with them at night. Most patients usually use the trays for about two weeks and then return to the dentist to see how much their shade has changed.

The FDA has approved several brands of these bleaching products which can only be supplied by a dentist. These products are safe for the teeth when used as prescribed. Most people with stained teeth can benefit from bleaching, so at your next visit, ask how you can achieve that bright smile you have been dreaming of.

# Salem upsets Glenn, 30-17

## Moshimer: We were at our best

By TOM MOORADIAN  
MCN Staff Writer

Tom Moshimer sure knows how to ruin a party. Moshimer, the dean of local high school football coaches,

and his club, Plymouth-Salem, managed to put a damper on Westland John Glenn's homecoming festivities Friday night as the Rocks upset Glenn, 39-17, before a crowd of 2,000 in a Western Lakes, Lakes Division football contest.

It was Salem's second straight victory after losing its first five; it was Glenn's second straight loss after winning its first five.

"People probably didn't believe me when I told them that this was not an 0-5 team," commented Moshimer afterward. "We have a lot of potential and

talent, and the kids showed that at Glenn."

Moshimer also noted: "This was definitely our finest performance."

And the loss definitely left its mark on the Rockets, who still remain one-victory shy of qualifying for the state playoffs. They need six wins to qualify.

The loss also proved costly because, instead of playing for the conference championship, Glenn dropped to third place in the division and will go into this weekend's playoffs playing for the fifth and sixth

places.

However, if Glenn had won, the Rockets would have won the divisional title, and would have met Walled Lake Western for the conference championship.

Instead, Friday night, coach Chuck Gordon and the Rockets will host Plymouth-Canton. And the Chiefs can be tough.

Farmington, a loser to Glenn earlier in the season but a clear-cut winner over Livonia Stevenson last week, will represent the Lakes Division in the upcoming conference championship contest. (The

Lakes Division schools will host the playoffs).

Stevenson, which dropped to second place in the division, plays Farmington Hills Harrison in the consolation round, while Salem takes on Livonia Franklin for the seven and eight spots.

Once riding the crest of a five-game winning streak, the Rockets also have to be concerned about their playoff chances. After the encounter Friday with Canton, Glenn will meet Wayne Memorial in the regular season's finale, and that game is as predictable as

the outcome of a Michigan - Michigan State game.

For the first time in recent memory, Glenn's defense collapsed. Salem scored 25 unanswered points in the last 12 minutes Friday night to break open what was a very close game.

Glenn blew leads of 3-0 and 17-14 against Salem: Jeremy Catarino's 36-yard field goal midway in the opening quarter lifted the Rockets to a 3-0 lead, and running back Eric Jones's TD provided the hosts with

See **UPSET**, page A-9

# Perfect 7-0 Romulus, Inkster continue to roll

With playoff berths secured, Romulus and Inkster rolled to their seventh consecutive victories of the season, and both now stand one-victory away from wrapping up conference football championships.

Romulus turned back a stubborn Trenton 20-7 Friday night before the rains came to remain undefeated in the Mega Conference, and clinch at least a share of the Blue Division title.

In the meantime, Inkster buried Highland Park 30-0 to stay atop of the Mega Conference, Gold Division. The Vikings are one-victory away from sealing their first-ever conference football title in nearly four decades.

Both teams will place their winning streaks and the titles on the line this week.

While coach Mark Woodson and the Eagles take on a capable Redford Thurston team that has won five of its seven

games, coach Mark Townsend and the Inkster Vikings will travel to River Rouge, a team also in the title picture that has the speed to derail Townsend's title express.

Romulus built up a 12-0 lead before Trenton came back with a "trick play" that netted the Blue Division title contender its first and only touchdown.

On a fourth and 14 situation, Trenton faked a punt and made it to the Romulus 20 and, although the Romulus defense held, on their ensuing series, Troy Rizzuto managed to score from the 19 for the Trenton's lone touchdown.

The Eagles got on the board in the first quarter when quarterback David Moomaw and Kevin Thomas combined on a 35-yard touchdown pass.

Romulus's attempt for the extra point failed.

Romulus came back from the intermission and widened

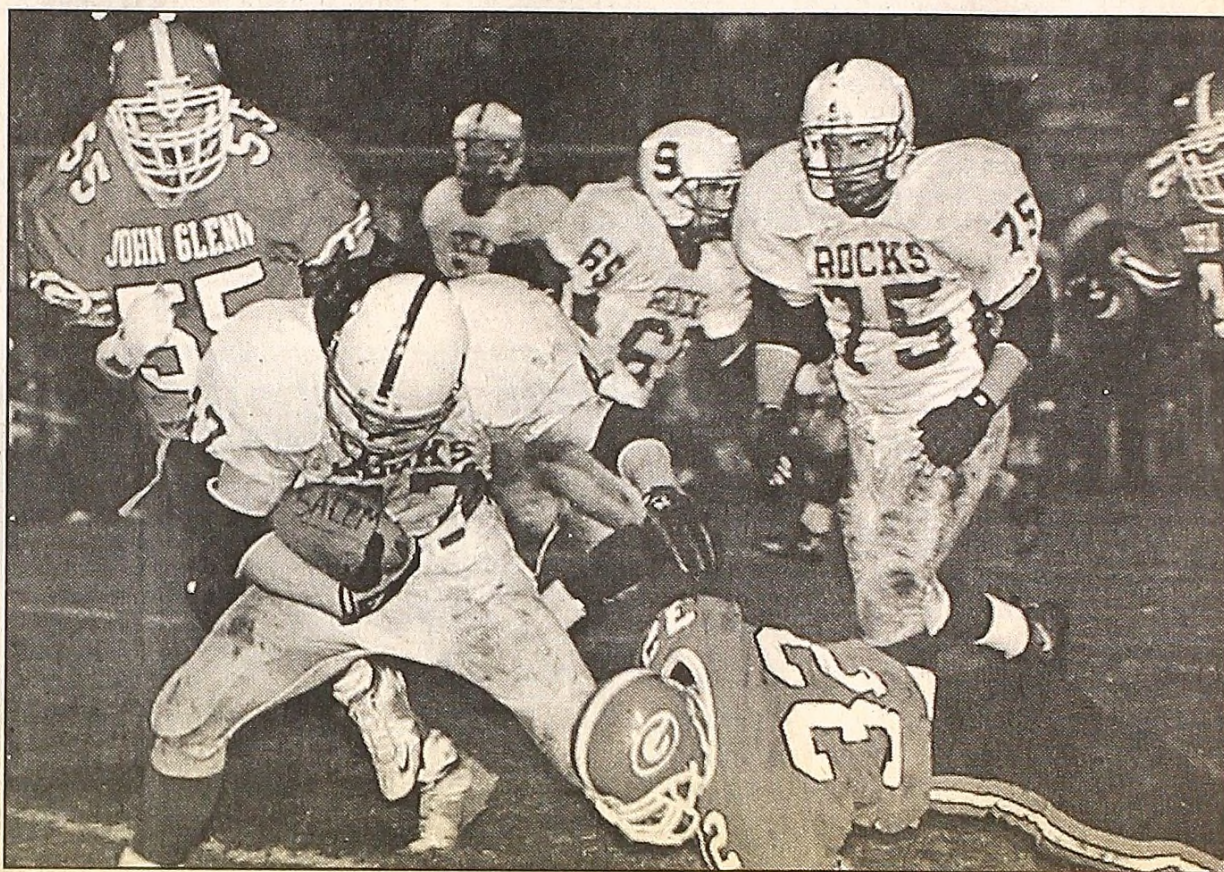

its 6-0 halftime lead with a sustained drive in their first possession of the third quarter that culminated in running back Charles Thompson's 55-yard, off tackle, touchdown.

Rick Foster nailed the point-after.

Then, in the fourth, Moomaw cashed in on a 15-yard up-the-middle dash that gave the Eagles an insurance TD. Moomaw's score capped a 55-yard drive, and Foster's PAT was good.

Thompson had an exceptional evening as he rushed for 140-yards on 14 tries and also scored one of the three touchdowns. Teammates Wendell Woods, who has seven rushes for 43 yards and sophomore Charles Searcy, who had five carries for 15 yards, also contributed to the Eagles' victory. Paul Brown, a freshman running back, accounted for 14

See **PERFECT**, page A-9

Plymouth-Salem's senior fullback Jason Lukasik shakes off one Glenn defender in his quest for yardage. Lukasik and the Rocks upset Glenn in a key Western Lakes, Lakes Division game that dropped the Rockets to third place in the division and left the Westlanders one-victory shy of qualifying for the state playoffs. The Western Lakes stages their playoff series this Friday with Glenn playing host to Plymouth-Canton, while Salem will attempt to make it three in a row at the expense of Livonia Franklin. Photo by Aaron Ortiz

## Robichaud continues to struggle

By TOM MOORADIAN  
MCN Staff Writer

It's not been an easy year for first-year coach Mark Medlock and Robichaud's Bulldogs.

After winning their season's opener at the expense of Grosse Ile, Medlock's Bulldogs have dropped six in a row and are in dire need of an uplifting victory.

Crosstown rival, Dearborn Heights Annapolis, may just be the remedy for what ails Robichaud. The two city rivals will meet at 1 p.m. on Saturday in a Mega Conference, Gold Division game.

"We match up pretty evenly," says Medlock, after his Bulldogs dropped a 22-0 decision to another cross-town rival, Crestwood, last Friday. "They (Annapolis) are young and inexperience - just like we are, but they also have set aside Saturday for their homecoming, so we are also going to have to contend with the extra incentive they will have to win."

Medlock said being "short-handed" has hurt this year's team. The Bulldogs usually suit up 14 players who play offense as well as defense.

"Even though these kids tire, they never quit," said Medlock, who is a former Robichaud quarterback that inherited the team a few weeks before the season began.

Crestwood jumped to a 14-0 halftime lead before breezing to their first shutout of the season. Robichaud never seriously threatened as the Chargers held their visitors out of the "red zone" most of the game.

Despite the loss, Medlock had praise for Marcus Johnson, a 6-5, 210-pound middle linebacker, who was one good reason why the Chargers didn't score more.

Despite senior running back Eric Jones's heroics, John Glenn lost a crucial divisional game before a homecoming crowd against Plymouth-Salem Friday night. Jones again was superb as he rushed for 100-plus yards and kept the Rockets in the game until the final quarter when the Glenn defense collapsed and gave up an unprecedented 25 unanswered points. Photo by Aaron Ortiz.

## Wolverines to hold tryouts

The Michigan Wolverines will hold baseball tryouts for players between the ages of 11 and 14 beginning at 2 to 4 p.m. on Sunday, Oct. 17 at the Leonard J. Anderson Memorial Baseball Field.

The field is located on Howe and Annapolis Road.

The Wolverines compete in the Little Caesar's League. The team is cosponsored by the University of Michigan.

"Our players are usually drawn from the cities of Wayne, Westland, Canton and Garden City" says Lou Jammick, team manager, "but any player who is interested in the age group is welcomed to try out."

Players, or their parents, who need further information may contact Jammick by dialing 734/595-2975.

## Twisters one victory away from nationals

The Twisters are one victory away from qualifying for the national football playoffs. They're in that enviable position by turning back Lorain (Ohio) County's Steelmen, 24-22, thanks to a fourth quarter field goal by Charles Petipas.

With time running out and their offense stalled inside the Steelmen's 30, the Twisters called upon Petipas to boot a 21-yard field goal, and the Twister star hit his target.

Glenn Brothers, Twister CEO, was elated with the victory which will qualify the local semi-pro football team to take on the Central Ohio Lions for the Lake Shore Football League Championship.

The championship will be

decided on Saturday. Not only is the LSFL title at stake, but the winner will advance to the "AA Division", American Football Association's national tournament.

The Lions are ranked third nationally, and Twister head coach Jason Hagelthorn says his team is in for a battle.

"If we can defeat this Lions' team, our team will win its first LSFL title and we will be in the "AA" championship playoffs."

The LSFL title game will be staged Saturday in London, Ohio.

The never-say-die Twisters feel fortunate of reaching the conference finals. They had to come from behind to get there. The Twisters trailed 16-0 be-

fore the wake-up call shocked them into action, according to Brothers.

"That first period was difficult to digest," said Brothers. "It seemed everything we attempted to do either failed or backfired. It was embarrassing and very humiliating."

"But our young men rose above the failures of that first period and played the next 45 minutes like champions. And they are going to have to play better if they hope to beat the Lions."

In the divisional championship game, the Twisters found themselves fighting an uphill battle against the Steelmen at Willow Run High School.

See **TWISTERS**, page A-9

## Winless in Wayne Time is running out on Zebras

By TOM MOORADIAN  
MCN Staff Writer

Time and games are slowly running out on winless Wayne Memorial.

After losing a lopsided 34-6 decision to Wyandotte Anderson on Friday, Wayne has just two more shots at left winning another football game in this century.

And it doesn't look good for coach Floyd Carter and the Zebras. Their final two opponents look tough.

Ypsilanti, next in line for the Zebras, and John Glenn, the final regular season opponent, have winning records.

Last week, Ypsi handed coach Bob LaPointe's Tigers at Belleville their second straight setback, 29-7, and that means Belleville still remains one-victory shy from qualifying for the state playoffs.

With Fordson and Romulus visiting Belleville on back-to-back weekends, it will not be

easy for the Tigers to snap out of their two-game losing streak.

Although they are out of the playoff picture, Wayne Memorial could ruin it for its cross-district foes, Glenn, if the Westlanders don't take care of business Friday night against an up-and-coming Plymouth-Canton.

Wyandotte was not taking any chances with Wayne Friday night. The Bruins also are on the verge of wrapping up a playoff berth and need just one more victory to clinch a berth. Their 34-6 win Friday lifts the them to within one of the magical six wins to qualify for the state playoffs.

In less than one minute, Wyandotte sent the message and was on the board against the visiting Wayne. Quarterback Jeff Powell marched the Bruins 33 yards in seven plays with Nick Miller crashing into the Wayne end zone from four yards out for the initial tou-

chdown. That TD came with merely 45 seconds on the clock.

Miller then booted the extra point to give the hosts a quick 7-0 lead.

Wyandotte made it 14-0 late in the second quarter when Power connected on a 24-yard touchdown pass to Scott Pearce. Again Miller converted and with 2:41 left, the Bruins were up 14-0.

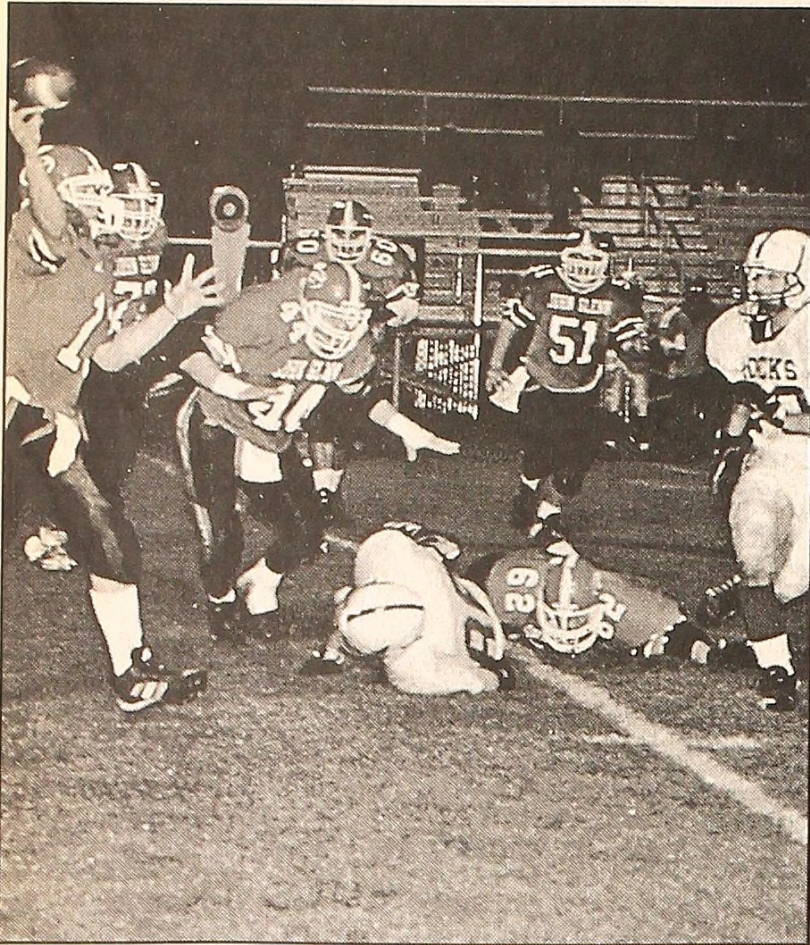

Miller's one-yard TD plunge after a 31-yard, four-play drive after Wayne fumbled the kickoff return set up the Bruins' third TD. Powell and Pearce accounted for 24 of those yards with a pass completion.

Miller also scored on a 36-yard run that was the end product of a 62-yard, three-play drive late in the third quarter.

Wayne managed to avoid the shutout in the final two minutes of the game when Jer-

See **WAYNE**, page A-9

With Plymouth-Salem's Jeremy Antonio (20) closing in, Glenn quarterback Randy Sinnott unwinds one of his pitches against a Rock defense that stood its ground. Sinnott and the Rockets had their problems Friday night against the revitalized and upset-minded Salem team that may have pulled the upset of the 1999 campaign by handing the Westlanders their second loss in as many weeks, 39-17. Photo by Aaron Ortiz

## Wayne

Continued from page A-8

maine Garner took it in from 25 yards out after a quickly-conceived five-yard pass from Matt Patterson to Matt Lededma and lateral play. Wayne had marched 56 yards in nine plays, with senior running back Kwame Hampton getting 17 of those yards on a fourth-and-13 draw play. Wyandotte's defense was merciless on Wayne. The defense sacked Patterson five

times and gave up a total of 40 yards - 19 to Garner and 18 to Hampton.

Patterson went to the air 20 times and completed seven passes for 84 yards. Hampton caught five of those, while Garner and Ledesma split the other two.

If Wyandotte is to reach the playoffs, the Bruins will need to either beat Mega Conference, Red Division opponent Friday night, or if they failed in that quest, then their final opportunity will come a week from Friday when they take on Dearborn.

## Twisters

Continued from page A-8

On their first three possessions, the Twisters couldn't move on the Steelmen's defense and were forced to give up the ball via points.

With two minutes remaining in the half, the Twisters managed to get their act together.

The first Twister score came off of a four-yard plunge by Damon Frendo, which was set up by a 42-yard pass completion from Rob Elswick to Reggie Brandon.

That TD apparently broke the ice.

The Twisters roared back on their next possession and scored on a third and 11 situation on their own 27 yard line. This time it was Ben Ferguson who got the Twisters going. He ripped off 39 yards and a first down. Then Elwick again found Brandon open at the Steelmen 15, and Brandon made the catch and the ball in untouched.

Petipas hit the point-after and the Twisters were back in the game at halftime, 16-14.

The Twisters eventually took the lead midway into the third period when Elswick, on an option, scampered 31 yards for the Twisters third and final touchdown.

After Petipas's conversion, the Twisters on top 21-16. But their lead was short-lived. The

Twisters came back as Kareem Hunt connected on a 13-yard touchdown pass to Tyrone Nelson, lifting the Steelmen into the lead again, 22-21.

With seven minutes left, the Twisters hustled to come up with an answer. They did. On a fourth and goal at the Steelmen's three, Petitpas was called upon to kick a 21-yard field goal. He came through with the three-pointer which decided the divisional title.

Ferguson was the top rusher for the winners, with 79-yards on eight carries, while Brandon led the receivers. He had five catches for 96 yards and one touchdown.

The Twisters' offense produced a grand total of 327 yards on 49 plays, while the Steelmen had an output of 276 yards on 51 plays.

Defensively, Bob Pensari had a good day as he had six tackles and two sacks. Deon Perry, Cory McClelland and Aaron Brothers each chipped in with four tackles and both James Chapman and Earl Sutton had a sack and three unassisted tackles apiece.

"The staff felt that Matt Graca, Eric Thompson and Ron Andrews also were outstanding in the secondary," said Brothers, who also thanked the Willow Run Board of Education for allowing the game to be staged at Willow Run High School.

## Perfect

Continued from page A-8

yards on three attempts.

Moomaw hit receivers on nine of his 12 passes which netted 111 yards and one touchdown. He also rushed for a TD.

On defense, free safety Aaron Brohl was instrumental in stopping Trenton's aerial assault. Trenton completed two of 20 passes, and one of those passes was picked off by Romulus corner DeJuan McClen-don.

Other notables who turned in commendable performances on defense included Travis Whitehead, Steve Gregory and Ray Graves, who counted eight solos, three assists and three sacks of the

quarterback.

Inkster had two touchdowns called back on them against Highland Park, but the Vikings managed to make their initial drive that ended in a Michael Hunter TD pass to Jamal Poole stick in the first quarter. Hunter put together a flawless series that covered 75 yards for that one.

But, after the Vikings failed to capitalize on the point-after, they were kept out of the Parker end zone the rest of the half.

Inkster came back with 20

points in the third quarter as Michael Gray grabbed a short pass from Hunter and turned it into a 75-yard pass-run touchdown play.

Antonio Wimberly slipped off tackle for the two-pointer and, after the Vikings' defense, led by inside linebacker Anthony Wimberly and his twin, Antonio, stopped the Parker offense, Gray came back with his second touchdown, an 18-yard, off-tackle sprint.

At the end of the third, Lou Hawkins scored from the 10 after a 65 yard drive. The extra

point failed. Hawkins scored the Vikings' final TD in the fourth quarter, a 35-yarder which he managed through the middle of the Parker line.

Hawkins finished with 150-yards on 12 carries and two touchdowns, and Gray rushed for 125 yards and also had three pass receptions.

Hunter completed six of 10 passes for 125 yards and one TD.

Anthony Wimberly chipped in with 12 solos and eight assists and his twin also had 17 tackles.

## Upset

Continued from page A-8

those leads.

But Salem came back before the half to score six-points on quarterback Gabe Coble's first of three touchdowns for the evening kept the Rocks rolling until that incredible fourth quarter.

Jones, who has been nearly unstoppable this season, came up with a 54-yard touchdown run as time expired in the third quarter to keep the Rockets alive, but when Salem came back in the fourth period with its 25 points, a stunned Glenn had no answers.

Jones finished with 177 yards to turn in another stellar performance.

But Coble, along with running back Andy Kocoloski and Jason Lubasik, were outstanding. Kocoloski scored two touchdowns, one a 63-yarder. He also picked off a Randy Sinnott pass and returned it 23-yards for a TD. Kocoloski also scored a two-point conversion. In 16 rushing attempts, the senior running back piled up 122 yards.

Coble combined with tight end Jacob Scherabaty on a six-yard, fourth-quarter touchdown and the Rocks scored again after a Glenn fumble inside the Rockets' 37. Archie Kinney had an opportunity to scoot around end and go 32 yards for the TD.

Glenn's only other score came on Sinnott's 21-yard run.

Coble finished with 115 yards on 11 attempts and also was credited with three touchdowns.

"I felt this was a great team effort by our kids," said Mosher, in summing up the Salem victory. Every time they (Glenn) scored, we answered. Right now, we are playing the way we should have been earlier in the season - virtually mistake free."

## Belleville brings hoop, sister act to Wayne

By TOM MOORADIAN  
MCN Staff Writer

One of the best sister acts on the high school basketball circuit this season will step into the limelight when Belleville continues its quest tonight for a Mega Conference, Red Division title at Wayne Memorial.

"The Kilgore sisters are probably one of the best, if not the best pair of players we will see this year," said Wayne coach Wayne Woodward, who unfortunately doesn't have an experienced club to oppose the invaders.

"It's good experience for our players to get exposed to such talent but I have to be realistic, Belleville has one of the finest teams in the conference and the area this year."

Despite an outstanding effort by guard Sarah Moore, Wayne dropped a 59-40 decision to host Fordson on Thursday. That loss came in the wake of a 57-36 setback Tuesday at the hands of the Pirates of Riverview.

Against Fordson, Wayne had its problems stopping 6-5 Tractor center Marian Reda who tossed in 16 points and grabbed 14 rebounds to lead her team. Teammate Jackie Pingston added 17 points.

Wayne trailed 19-11 after one, but the Tractors outscored their visitors 23-12 in the second period thanks to their 1-2 punch of Reda and Pingston to go up 42-23 at the half.

The outcome of the game was never in doubt after the initial half.

Moore was the only Wayne player to score in two figures. She sank 13 points.

In the Riverview game, Moore and Erin Davis each scored seven points while teammate Crystal Harris added nine.

Riverview jumped to a 18-6 first-period lead and managed to stay in front at the intermission 34-20 before going on to outscore their conference rivals, 11-4, in the fourth period. Jen Thurman tossed in 10 for the winners.

## Yellow Jackets sting Romulus in Little League

It was an overcast day as the Flyers went against the Huron River Yellow Jackets in the Flyers' 1999 homecoming game.

In the freshman game, a solid Yellow Jacket team and a muddy field doomed the Flyers. The Yellow Jackets controlled the game from beginning to end.

The Flyers were never able to mount much of an offense on the slippery field while the slower Yellow Jackets pounded the Flyers 19-0 in the opener of the three-game series.

The Flyers did receive outstanding performances from Aaron Rollins on offense and Michael Behnke on defense.

In a game of inches, the junior varsity game was just that - a game of inches.

Again, the Flyers were held back by field conditions, as the field never seemed to dry out from the recent rains.

In the first quarter, neither team was able to find much success running the ball because of the mud.

In the second quarter, the Flyers opened up their passing game and found success as Ahmaad Gambles connected with Kenny Charles on a 55-yard touchdown pass midway through the quarter.

Travis Parker came off the bench to replace Gambles and again with Charles for the extra point to give the Flyers a 7-0 lead. Late in the second quarter, the Flyers were threatening to score again but time ran out on them.

For the third quarter and, for almost all of the fourth quarter, neither team was able to mount a serious drive.

With about two minutes left in the game a Romulus fumble gave the Yellow Jackets the ball at the Flyer 20-yard line. With time running out and fourth down, the Yellow Jackets attempted a pass that fell incomplete in the Flyer end zone.

A 15-yard interference call kept the Yellow Jacket drive alive at the Flyer nine with less than 50 seconds left in this game.

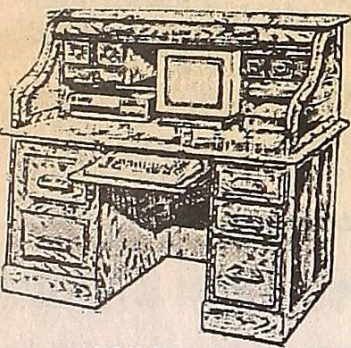

With fourth down and less than 10 seconds left on the clock, the Yellow Jackets ran their final play from the Flyer three-yard line.

After the pile cleared, the Yellow Jacket runner had been stopped less than an inch from the goal line preserving the 7-0 victory.

### 'Quality and Service' are Accurate Floor Covering

The Goff family seems to know the secret to success. After all, they have been in the flooring business for 10 years now and continue to provide the same level of quality service and products that they did back in 1989. Art Goff, and his son Craig, remain adamant in the claim that "satisfying customers needs" is the most important thing in business.

After a fire destroyed all of their store in 1996, Accurate Floor opened up again on October 1st. This time though, they unveiled their newly designed store and at the same time, became America's newest Mohawk Floorscapes participating retailer. According to Craig Goff, "By adding the Mohawk Floorscapes name to ours, we're building on our reputation for quality and service by offering customers the latest concepts in flooring fashion, style, color and performance." Accurate Floor sells and installs vinyl flooring, pre-finished hardwood floors and carpeting for both residential and commercial use. It also does custom work, including borders, inlays and logos.

A new addition to their company is the Idea Center. "Now customers need to bring only their fashion sense to our self guided Idea Center. Then Floorscapes invites customers to investigate and experience all on their own, the latest carpet styles, colors and textures...all performance related according to their lifestyle," Craig says.

This family business is proud of the service they provide and are reassured of their quality performance through their return customers and the referrals they make to their friends and family. So while Art and Craig handle the inside and outside sales and Craig's wife Tammy runs the office, Accurate Floor Covering remains a pinnacle of triumph success.

Offering luxury flooring at affordable prices Accurate Floor Covering is open for business Monday 10-8 pm, Tuesday through Friday 10-6 pm and Saturday 10-5 pm. They are located at 44555 Joy Road in Canton Township or can be reached by phone at (734) 454-4140.

Part-Time

## Retail Account Representative

Part-Time  
Ann Arbor Area

If you are interested in working in a professional sales environment which provides:

- \*Part-time hours
- \*Opportunity for personal and professional growth
- \*Opportunity to meet and work with people

.....then we have an opportunity for you!

We are a leading manufacturer of household, health and beauty care items and are looking for a highly motivated individual to work part-time, 24 hours per week, as a Retail Account Representative. We will train you to sell, service and merchandise products, such as Tide, Pampers, Crest, Pantene and Cover Girl. Your territory will consist of retail grocery, drug and mass merchandiser stores in your area.

We offer:

- \*Attractive starting salary
- \*Car allowance
- \*Paid vacation

We are looking for a good communicator who enjoys the challenge of selling and problem solving. A reliable car, proof of insurance, and a valid driver's license are a must. Previous sales and/or merchandising experience is preferred, but not required. THIS POSITION WILL NOT LEAD TO FULL TIME EMPLOYMENT.

To learn more about this rewarding opportunity, send resume to:

**THE PROCTOR  
& GAMBLE  
DISTRIBUTING  
CO.**

Attn: Ann Arbor Recruiter  
12221 Merit Drive, Suite 550  
Dallas, TX 75251  
NO PHONE CALLS  
ACCEPTED  
Qualified candidates only will be contacted. Equal Opportunity Employer m/f.

# Major vehicles for the new millennium from A to Z

By KAREN BEROFF  
MCN Auto Editor

**A** is for the redesigned Acura 3.2 TL. This year Acura returns with some impressive improvements. The 3.2 liter 255 horsepower now gets even better gas mileage, and has more midrange power. It's paired with a quick shifting five-speed. A roomy, leather-lined cabin comes complete with plenty of comfort and convenience items and now includes front-seat side airbags. And an optional navigation system.

**B** is for Buick Century 2000. Carrying the millennium year as part of its label, the Century 2000 is a special edition car, featuring added power, better value, and a fresh new appearance. Commemorative 2000 badging and embroidery is a tip-off to the added performance and increased comfort ushering the buyer into the Century/century.

**C** is Cadillac Deville and Concours. You'll see further into the next millennium from the driver's seat of the Deville and Concours, at least at night anyway. With the first ever optional automotive night vision, you'll be able to pick out road hazards much beyond regular headlights. Other technotreats lie ultrasonic rear parking assist, massaging lumbar, and the fairly new OnStar System.

**D** is for the Dodge Intrepid. With a strong running new powertrain borrowed from the Chrysler 300M, the RT model makes its debut. The 3.5 liter 242 horsepower is paired with a dual mode AutoStick transmission and new performance tuned exhaust. Naturally, there are some stylistic teaks such as RT badging and embroidery, 17 inch wheels, and fog lamps.

**E** stands for Escort. There are not a whole lot of changes to this popular vehicle for 2000. However, the sporty ZX2 brings distinctive design and attitude to folks shopping for a reasonable price coupe. As an image leader for the Escort family, the ZX2 aims at a younger audience than that of the more conventional sedan.

**F** also happens to be from the Ford family. A brand new Focus, designed on a totally new platform. The Focus is set to provide economical transportation without compromising interior room, safety, and comfort. The Focus has one of the most spacious interiors in its class. Lively exterior styling and an ergonomically sensible interior give the Focus some flair, without screaming "economy."

**G** is for the General Motors EV1, which just happens to be an electric car. Since its introduction, the EV1 electric car has lived up to its performance claims since day one. The EV1 is available at select Saturn dealers, but only on a three-year lease deal. Standard range is between 65 and 95 miles per charge.

**H** is for the affordably sporty Hyundai Tiburon. A redesigned exterior for 2000 gives the coupe a new look with a new multi-headlight fascia and a smoother more rounded rear end. It also gives you a little more bang for your buck. It's quick, nimble and sportier than ever.

**I** is naturally for Infiniti. I happened to really like the J30, and can't figure out why they got rid of it, and replaced it with a boxy, ugly, non-stylish car. The QX4 sport-ute is wonderful, however, the G20 is ugly and overpriced. The call it a luxury sport sedan. This time around, an improved 2.0 liter inline four will bring you up to 145 horses. I don't know about you, but it just does not cut it for me.

**J** is for Jag, as in Jaguar. Already on sale, Jag 2000 S type makes a memorable addition to the family as well as the luxury sedan market. Distinctive styling pays tribute to the s type's classic heritage. You can choose either a new 3.0 liter 240 horse, or a 4.0 liter 281 horsepower V8 engine. Inside the lushly appointed cabin, you'll find no shortage of comfort, convenience, or luxury. A voice activated control system responds to English commands to allow the driver to operate such things as climate control and audio systems. The only thin that this car cannot

do is make you a cup of coffee.

**K** is for the very reasonably priced Sephia. Does Y2K really mean, "Yes to Kia"? For the 2000 model you can expect to see the Sephia with upgraded seat fabric, new audio system, and two additional color options. Both available Sephia trim levels are powered by a 1.8 liter 125 horsepower DOHC inline four cylinder. Despite its compact exterior, the interior is just about as roomy as the Ford Contour. The base model is purposely fitted with few amenities to keep the price down. The higher level LS is more comfortably equipped, and the power package adds many more upgrades.

**L** is for Lexus. The 300 Lexus that is. Available late in 2000, this new Lexus sedan will be an early 2001 model. Building on the success of the GS sedans, the comparatively affordable IS will appeal to younger, affluent buyers and compete with BMW's 3 series. This vehicle comes with just about everything standard for a fairly affordable price.

**M** is for Benz, as in Mercedes Benz SLK. If you crave the roadster experience, then you will love this one. It is everything a two-seater sports car should be. It is fun to drive, has a retractable hardtop, and get the looks you wouldn't believe. It comes equipped with a 2.3 liter 195 horsepower supercharged inline four. This one gets you 60 miles per hour in an entertaining seven seconds flat. The hardtop goes down with just a touch of your finger to a button in just 30 seconds. Standard driver and passenger front and side airbags are standard, as well as everything else. A compact disc player is the only option.

**N** is for Nissan Altra EV. Believe it or not, this one is electric. It has a Lithium-ion battery power plant. Using the same inductive charging system as the GM EV1. Altra takes five hours to fully charge. Or you can take more time and plug in the Altra's portable charging unit anywhere. The electric motor produces 83

1999 Mercedes SLK

## All-new Monte Carlo: sophistication and performance

Since its first appearance 30 years ago as 1970 model, the Chevrolet Monte Carlo has cultivated an appealing dual personality: It's a sophisticated coupe with a sporty, performance-oriented image. The all-new 2000 Monte Carlo delivers higher levels of both sophistication and performance.

"We set out to create a new Monte Carlo that delights your senses and quickens your pulse," said Kurt Ritter, Chevrolet's Marketing General Manager. "The new Monte Carlo is distinctive from everything else on the road in many ways, from dramatic new styling, to interior design and technology, to its heart-pounding approach to the performance driving experience."

Chevrolet unveiled the new Monte Carlo at the Chicago Auto Show in February 1999 in

two production version: the sophisticated, yet sporty LS and the ultimate, performance-oriented SS. According to Ritter, the lineup showcased the best of Monte Carlo's dual personality.

"Monte Carlo is a very distinctive, personal driving machine that surrounds you with performance in a premium environment," Ritter said. "We call it 'classy with a wild streak.' It can be either, or both. The side you show the world is up to you."

Monte Carlo's dual personality has been popular with buyers. The 1999 model was the best-selling mid-size coupe in America. Features on the 2000 model are designed to build on that success. Monte Carlo offers amenities such as newly designed seats, a NASCAR-inspired gauge cluster, an exclusive driver message

center and RoomFirst design which optimizes interior space for maximum comfort.

At the same time, Monte Carlo offers the exclusive Total Performance System—a carefully engineered combination of powerful and efficient engines, larger four-wheel disc brakes, retuned suspensions and all-new structural features. This system provides Monte Carlo with inspired performance that's sure to please driving enthusiasts.

"The new Monte Carlo is like a personal invitation to challenge your favorite stretch of two-lane highway," said Monte Carlo Brand Manager Don Parkinson. "It has the agility of a sports car, with a controlled, balanced ride. Wrap that in a driver-oriented interior, and you have a car that will satisfy anyone's passion for driving."

# Expert advice: the dealers pick the best of 2000

By CAROL MARSHALL  
MCN Staff Writer

When I began working on Michigan Community Newspapers' annual Auto Premier supplement, I admit I was a little lost. You see, I'm not a car person. You know the type—can identify different cars and trucks by sound from three blocks away, and follow up by telling you what's under the hood. They can use the phrases "axle ratio," "torque reduction," and "ergonomically sensible"....all in one breath. I can't. But I do like to drive.

So, I thought who better to ask about the hottest, newest, best offerings on the market than the auto dealers?

And did we ever get an earful. Like all hard-core car enthusiasts, those dedicated dealers and showroom managers quickly answered the question: "What's your favorite car for 2000?"

And their favorites came in all shapes, sizes and styles.

Sandra Schriber of Atchinson Ford said her pick for 2000 is the Ford Focus. "It is really a well-built car, built for the new Gen X-ers and Echo Boomers (those young adults born after 1980)," Schriber

said. "You just have to test drive it to appreciate how nice this car really is."

Dick Malinczak, sales manager, Bill Crispin Chevrolet, had two offerings for our Dealer's Pick story. "The Silverado pickup is still going to be number one," he said. "But the new Monte Carlo is a really nice car."

Steve Erdman at Jack Demmer Ford's pick made us "think big" when he chose the Ford Excursion as his favorite. It's big. It's new. It's exciting," pretty much summed up Erdman's feelings about the Excursion.

Mike Zubor, Zubor Buick, went a little more traditional. "The 2000 LeSabre—that's really the car that has to be our favorite. It's a very nice car," he said.

Dave Garcia, Bill Brown Ford, said his pick is a truck. "The F-150 Super Cab four-door is my pick," he said. "The four doors are very convenient. Comfort. Stability. I like everything about it."

And some guys could barely contain their enthusiasm, as was the case with Lowell Dunning at Ann Arbor Toyota Mazda Volvo. "It's new, it's awesome, it's the Toyota Avalon!" he exclaimed. "This is

top of the line, baby! It has everything—it's loaded," he said of the car's brand new body designed, which he explains is based on the Lexus platform.

Phil Michael, University Chevrolet, took a more practical approach. "The Impala—It's all new and it offers the best value for the dollar. The 3800 engine is the best engine GM has ever made," he said of the bigger, safer version of a traditional favorite.

Jeff Scott, Dick Scott Dodge, chose the Dakota Quad Cab with four actual front-hinge doors.

Tim Denstedt, Suburban Honda, thought "sporty." He chose the Honda S-2000, explaining, "It's a top-ranked sports car at an affordable price."

We took a closer look at a few of the vehicles the dealers picked, and you'll see them throughout this section. Be sure to check out MCN Auto Editor Karen Beroff's complete look at what's fresh and new for the new millennium in her A to Z article, beginning on Page C-3. Don't get too comfortable, though, you might just be inspired to hit the open highway!

# Ford Excursion is big, bad and ready to roll into 2000

"The customer came first in developing the all-new Ford Excursion. It's designed to provide customers with a fresh new choice in the heavy-duty utility market. Excursion offers more space and convenience for passengers, more utility for activities such as towing and more versatility for carrying cargo and luggage—while at the same time setting a bold new standard for safety and the environment," said Gurinder Bedi, Vice President - Ford Truck Vehicle Center.

Maximum interior space. Superior seating functionality and passenger comfort. A tough and powerful powertrain lineup with maximum towing capability. Safety and environmental leadership. These were the objectives set for the team that developed the all-new 2000-model Ford Excursion.

Their target was to create a new choice in the segment—formerly dominated by only one vehicle—to appeal to the growing number of buyers who need to carry cargo and several passengers while towing for both personal and commercial use.

Excursion delivers on that promise with a design and

package that offers more passenger and cargo room than the competition. At the same time, Excursion sets new safety and environmental standards with features that are the first of their kind in the segment and even the truck market.

Excursion offers comfortable seating for up to nine adults—eight when dual captain's chairs are fitted in place of the standard 40-20-40 front-bench seat.

Compared with the competition, Excursion is 7.2 inches longer, 3.3 inches wider and between 4.3 and 5.8 inches taller. At less than 7 feet tall, including the low-profile roof rack, and less than 20 feet long, Excursion still fits into a standard-size garage.

Excursion offers an impressive 48.0 cubic feet of cargo space when all three rows of seats are in place. Without the last row bench which is mounted on rollers for easy removal—Excursion's cargo capacity increases to 100.7 cubic feet. Removing the third-row bench and folding down the second-row seat backs result in a flat cargo area large enough to accommodate a 4-by-8-foot sheet of plywood—with an impressive 146.4 cubic feet

of available cargo space. That's about eight times the trunk volume of a full-size passenger car.

Excursion offers ample payload capacity of up to 1,906 pounds—1,750 pounds with the 4x4 drivetrain option.

Towing capacity ranges from 6,200 pounds (4x2 with base 5.4-liter Triton V-8 engine) to 10,000 pounds (6.8-liter Triton V-10 gasoline or 7.3-liter Power Stroke V-8 diesel).

Customers in the full-size SUV segment expect a vehicle with maximum functionality and flexibility to serve a very broad range of needs.

Excursion features a unique rear tri-panel door system. A one-piece upper liftgate permits quick access to the cargo area, offers an unobstructed rear view from the driver's seat and includes an intermittent single wiper and window defroster. Two lower cargo doors swing open approximately 180 degrees for maximum and unobstructed access to the cargo floor, with detents to hold them open at angles of approximately 105 degrees. The doors can be opened even when a trailer or boat is attached for towing.

# Impala delivers pure American driving excellence

Since it was first introduced in 1958, Impala has become more than just a car for millions of Americans: it's a passion. A pure American driving excellence.

Impala was conceived designed and built using a simple, magic formula: provide a good-looking car with more performance, amenities and value than you might expect, all at a Chevy price, and the rest will follow. And that's the same formula used to bring the all-new 2000 Impala to market.

"Today's sedan buyer expects just one thing--everything. And they want it at a fair price," said Don Parkinson, Impala brand manager. "Impala is the car they need; it's the car they want; it's the car they deserve. That's what Chevrolet and the 'magic formula' are all about."

Parkinson said that Impala is for consumers who are longing for a car they can love again. "They want a car that satisfies the head while appealing to the heart. A car that's a real choice....not a compromise."

Chevrolet Impala is available in two sedan trim levels: Impala and Impala LS. Parkinson said that customers will notice throughout both models subtle feature overtones from the long Impala heritage, like the styling lines that stretch across the classic's profile.

Performance and Chevrolet go hand in hand. That's why the Impala offers the Total Performance System--a careful engineered package of components that delivers an impressive combination of solid structure, excellent engine power, fuel efficiency and ride and handling.

"The new Impala lives up to its performance legacy in a way that's right for today. It's a balanced approach that says huge fuel economy penalties don't necessarily accompany great powertrain performance," said Greg Bellopatrik, Impala chief engineer. "It proves that a roomy, six-passenger sedan can also be very agile. And it's a testament that superb brake performance is no longer the sole property of the Europeans. This Impala is a totally new breed."

Impala's standard engine is the proven 3400 SFI V6. This engine offers impressive horsepower and torque and, based on preliminary internal tests, is the most fuel-efficient in the midsize car segment. GM's award-winning 3800 V6 is the uplevel engine choice and is one of the segment's most fuel efficient engines with 200 horsepower.

The foundation of the Impala center around a stiffened chassis and unique extruded aluminum engine cradle. This feature provides an added measure of strength and stiffness to the chassis, in addition to the numerous structural enhancements found throughout the vehicle.

The brake system used on Impala was designed to provide excellent pedal feel, consistent performance (regardless of speed or temperature), low pulsation, excellent rotor wear, long component life and minimized noise. Both Impala Sedan and Impala LS come standard equipped with 4-wheel disc brakes. Antilock brakes (ABS) come standard on LS and is optional on Impala Sedan.

Every so often, a car comes along that defies traditional size classifications to offer customers something new, something better. The new Impala is just that car, and it offers unparalleled comfort and amenities in a Chevrolet at a Chevrolet price.

# Buick LeSabre builds on success

Buick's main challenge in creating an all-new LeSabre sedan for the 2000 model year was simply this: How do you improve one of the most successful automobiles on the market?

LeSabre's status as the best-selling U.S. full-size car for seven straight years was a strong indicator it was already providing a successful blend of attributes: roomy comfort, smooth power, quality, safety and security. Basically, customers saw the six-passenger LeSabre as an outstanding value.

Pointing out the car's excellent reputation, he noted LeSabre has, for 1998, again won the prestigious "Family Car of the Year" award from Family Circle magazine and in recent years has received various quality (J.D. Power), safety (Kiplinger's magazine) and value (IntelliChoice, Strategic Vision, Car Guide, etc.) honors.

"We're proud of all of them, but we're most proud of the one that indicates we are truly customers who want an upscale, roomy, comfortable and safe car with classic styling--and also a great value."

So, when it came time for a new model, product planners were determined to keep LeSabre's regular customers happy. At the same time, they wanted to widen its appeal. The result--the 2000 LeSabre--has numerous new features designed to strengthen LeSabre's position as a premium sedan for traditional American families.

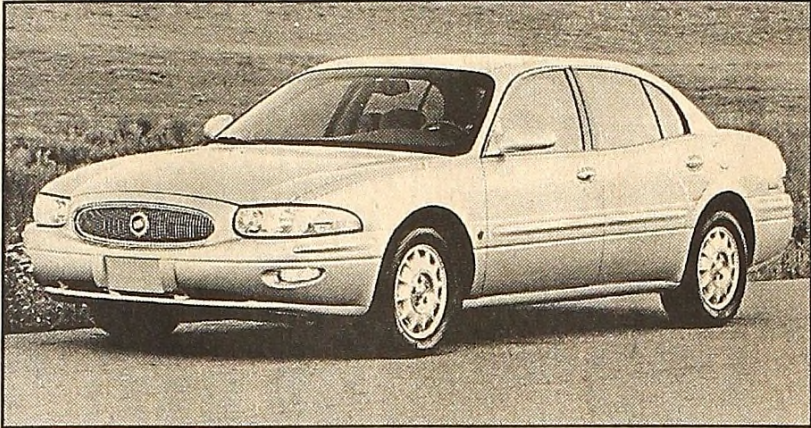

"However, the main feature of the 2000 LeSabre is not its list of innovations and improvements--though it's an impressive list--but the overall package designed to continue the winning formula," said Joseph J. Fitzsimmons Jr., LeSabre brand manager.

"From the exterior styling that is elegant and pleasing--timeless rather than gimmicky--to the very popular 3800 Series II V-6 engine and the new stronger body structure, this LeSabre is designed to attract a large number of meeting our customers' needs--and that's the best-seller award," Fitzsimmons said.

"We've sold more than one million LeSabres in the last eight years. Over that period, LeSabre has beaten all of our major competitors in retail sales--including Mercury Grand Marquis, Ford Crown Victoria, Chrysler Concorde, Dodge Intrepid, Toyota Avalon. That's a tremendous record of market success."

"I think it's a combination of delivering the right product features and right touches of comfort and luxury at the right price. LeSabre gives you a feeling of being in control and being secure--basically it's a car that provides peace of mind."

For the 2000 model year, he said, Buick set out to identify

2000 Buick LeSabre

# Silverado remains a favorite full-size pick-up

Chevy Silverado, the highly popular full-size pickup, continues to build on its bigger, faster, stronger, smarter qualities in 2000 with an available new fourth door and a variety of performance and convenience improvements.

The new optional driver-side fourth door on Extended Cab models, available in dealerships late this year, provides checking in at 285 hp @ 5200 rpm with torque raised to 325 lb.-ft. @ 4000 rpm.

On the exterior, wheel flares are now available in 1500 four-wheel-drive models, providing a sporty look while reducing dirt accumulation on bodyside panels. In addition, an available new tonneau cover helps keep exterior cargo dry during inclement weather.

The Silverado model lineup includes a 1500 Regular and Extended Cab and 2500 Regular and Extended Cab. A Sportside Box is available on select 1500 models. Customers can also choose a Short or Long Box, two- or four-wheel drive with standard LS or LT trim levels.

Silverado contains features that seem to belie the fact that it's a rugged Chevy truck--such as standard retained accessory power that allows electronic features to operate for up to 20 minutes after the ignition is turned off. And depending on model, a choice of vinyl, cloth or leather seating surfaces add comfort to even the longest trip, while standard passenger assist handles make entering and exiting easy. Extended Cab rear doors include handy interior storage compartments and swing-out windows. The rear-seat bottom cushion folds up to create more cargo room

easy cargo loading and passenger entry/exit. Silverado's new self-dimming rearview mirror helps reduce dangerous glare from trailing vehicles and now features outside temperature and compass displays for convenience. LS and LT models also include new programmable power door locks that allow the driver to customize locking and unlocking features to their individual preferences.

"We're never satisfied with the status quo," said Silverado Brand Manager, Rick Scheidt. "Although Silverado was redesigned just last year, we're always looking for areas to improve. Now, with the new fourth door option, we're giving our customers an even more comfortable and convenient pickup."

Powertrain improvements include more horsepower for the Vortec 4800 V8 SFI engine which has increased to 270 hp @ 5200 rpm--a boost of 15 hp over last year. The Vortec 5300 V8 SFI powerplant also receives 15 additional horses,

# Looking to the future: electric vehicles making big advance

Stepping out of the 20th century and into a new millennium, car manufacturers are offering electric—that's right—electric vehicles (EVs).

Powered by an electric motor instead of an internal combustion engine, EVs use electricity as the "fuel" instead of gasoline or other combustible fuel. The electric motor in an EV converts electricity, usually from a battery pack, into mechanical power to turn the wheels.

Major auto manufacturers are producing high-performance EVs in a wide range of styles and sizes, including passenger cars, minivans, sport utility vehicles and pickup trucks. EVs today come as small as bicycles and motor scooters and as big as buses.

Compared to gasoline-powered cars, EVs are fundamentally simpler. An electric motor, for example, has one moving part while an internal combustion engine has hundreds.

As with gasoline-powered vehicles, the distance you can drive an electric vehicle depends on how and where the vehicle is driven. Speed, stop-and-go, hilly terrain, etc., as well as auxiliary systems like heat and air conditioning affects how much power is needed from the battery.

In general, the first-generation EVs now starting to be produced have driving ranges between 40 and 120 miles on a single battery charge. While this obviously is less than gasoline-powered

cars, several points are important to remember:

- Most people drive far less than 50 miles on an average day. You probably would be surprised if you logged your own trips.

- Many vehicles in fleets operated by companies or government organizations are assigned routes that could easily be handled by today's EVs.

- The driving distance for EVs will become longer as advanced types of batteries, fuel cells, hybrid systems and other technologies continue to be developed.

For more information about electric vehicles, contact the Electric Vehicle Association at (415) 249-2690 or check out their Web site at [www.evaa.org](http://www.evaa.org).

## A to Z

Continued from page C-3

horsepower, has a governed top speed of 75 miles per hour, and can squeeze out a maximum of 120 in between charges.

**O** stands for Oldsmobile Aurora. In celebration of its fifth year as Oldsmobile's flagship sedan, the Aurora is about to be completely refined. Labeled as a 2001 model, it will appear in the spring of 2000 and will offer sedan shoppers a long list of choices and special features. To reach a broader spectrum of consumers, the original 4.0 liter 250 horsepower V8 snow complemented by a smaller 3.5 liter 215 horsepower engine.

**P** is for the Pontiac Bonneville. This one is redesigned from the ground up. Pontiac takes its slogan "luxury with an attitude" and adds a little more of each to the 2000 model. New body styling features cats eye headlights. More roominess and dual controls for driver and passenger cli-

mate control. It also has heated seats, a new Bose stereo system, and a much more roomy interior.

**Q** is for a quieter ride sought by new vehicle purchasers.

**R** is for Roush Mustang. At select Ford dealers only. For those of you who like speed, you can get a tire-spinning, rubber-burning taste of the NASCAR legend Jack Roush's handiwork. These brand new muscle cars come with a full factory warranty, and plenty of power. This one is available in three stages. A GT coupe that has a 4.6 liter 240 horse motor V8, a 317 horse, or my favorite—a stage three uncorks a supercharged 4.6 liter 390 horsepower that eats Camaros for a living.

**S** is for another kind of Mustang, and that is the Saleen. Sometimes you crave something out of the ordinary. Well, this car is it. Powerful, very sporty and caters to your most primitive craving for speed. The ultimate is the S351, which boasts a 5.8 liter 495 horsepower V8 supercharged with

enough brute force to rocket you from 0 to 60 in 4.6 seconds. For you more cautious types, Saleen also offers a 4.6 liter 285 horsepower model.

**T** is for the Toyota Echo. Determined to establish a new benchmark in value, while appealing to a younger modern market. The Echo took the place of the Tercel. Available as a coupe or sedan, this one is a great value.

**U** is for the Ultimate Vehicle that all manufacturers are trying to build.

**V** is for the new Volkswagen Beetle. This one is so hip that even Austin Powers drives one. This new Beetle is an impulse buy that you won't regret, once the new wears off. Striking a fine balance between handling, comfort, utility and styling, this bug is one great buy. A 2.0 liter 115 horsepower inline four carries the Beetle from one trendy destination to another. With an optional 1.8 liter 150 horsepower turbocharged four will save time en route.

W,X,Y and Z end my auto alphabet!

Silverado

Excursion

Continued from page C-6

while rear-seat heat ducts keep aft passengers as comfortable as those in front.

With Silverado, safety is always a priority. Key features include: driver and right front-passenger air bags, side door beams, crush zones and an energy-absorbing steering column—all designed to help protect occupants in the event of a collision. Standard Daytime Running Lamps (DRL) with Automatic Exterior Lamp Control automatically activate exterior lights under low-light driving conditions for greater visibility. The 4-wheel antilock disc brake system (ABS) is standard, while available fog lamps increase visibility during inclement weather.

LeSabre

Continued from page C-6

the features it would most like to improve by talking to customers. And then it improved them. As a result, the new model is stronger, quieter and more convenient and secure. It has, among a long list of improvements, side air bags, better ride and handling and more luggage capacity.

There is more stowage in the passenger compartment, new inset door handles, larger gauges, larger outside rear-view mirrors that are hinged so they will fold if bumped.

Fitzsimmons said customers will notice a smoother, quieter ride, a more satisfying sound when the doors close, and overall a more substantial "feel" created by the significant improvements in stiffness.

Among new options are a 12-disc CD changer mounted in the trunk, an astrorooftop, convenience console with writing surface, driver information center, rain-sensing windshield wipers and a three-channel universal garage door opener.

Continued from page C-4

third-row seating.

All Excursion models are fitted with a low-profile, 200-pound-capacity roof rack. Its fore-aft rails fall below the crown of the roof so there is no increase in overall vehicle height. When the quick-release cross bars and supports are attached to the roof rack rails, they increase overall vehicle height by only 0.7 inch.

Excursion's standard convenience features include wide running boards with standard illumination on the Limited series, a door-mounted keyless entry pad, reclining second-row seats and extensive noise control features for a quieter interior compartment.

The second-row seats split 60-40 and recline individually. Each seat back in the second row also can be tipped forward and the entire seat slid forward—a first-in-segment feature that enhances access to the third row from both sides of the vehicle. The second-row seats also include a fold-down center armrest containing two cup holders.

Reducing the amount of noise entering the cabin was a priority for the Excursion development team. Steps taken to ensure a quieter environment for the passenger include: molded sound absorbers and insulators in the dash, cowl, hood, front fenders, doors and rear quarter panels; mastic deadener pads in front footwells, transmission tunnel, second- and third-row footwells and cargo floor; molded sound barrier treatment in B-pillars; closed cell foam rubber plugs to seal D-pillars.

In addition, the Excursion 7.3-liter diesel has a first-in-light-trucks interior and exterior sound package, making it 8 to 10 decibels quieter—or roughly half as loud—to the driver and passengers than other diesels in production today.

The standard front and rear air-conditioning systems feature headliner registers that rotate 360 degrees. Privacy glass and separate reading lights also are provided for all

three rows of seating.

Power rear quarter windows—controlled from the front overhead console—are optional for the XLT and standard for the Limited series. Hinged from the forward edge, the windows feature inside-mounted hardware with no attachment buttons visible from outside the vehicle.

Safety consistently ranks among customers as one of their top three considerations when buying a vehicle.

Excursion's engineering team has created a winning product for safety-conscious customers, providing them with a heavy-duty SUV designed for top performance during crash tests and real-world accidents.

Plus, unlike other vehicles in its class, Excursion includes safety features to benefit other vehicle occupants, as well.

A unique new BlockerBeam system and enhanced rear underderride protection are designed to reduce the likelihood of lower-riding cars sliding beneath Excursion during front and rear collisions. This reduces the amount of intrusion into the passenger compartment, further reducing the car occupants' risk of injury.

Excursion also features abundant "crumple zones" and a body design that helps absorb energy and keep the passenger compartment intact during crashes. Steel side door beams offer customers enhanced protection during side impacts. Child seat tether anchors in the second row of seats further enhance the ability of parents to securely anchor child safety seats.

Excursion offers customers the total package—utility, roominess, comfort and several distinct features that make this heavy-duty SUV friendly to the environment.

Excursion will be certified as a low-emission vehicle—or better—in all states and on all engines.

With 5.4- and 6.8-liter gasoline engines and a 7.3-liter Power Stroke diesel engine, Excursion produces up to 43 percent fewer smog-forming exhaust emissions than permitted by law.

This powerful people and cargo mover can accommodate nine people and their luggage.

# 2000 Ford Focus - raising the standard for small cars

The all-new 2000 Ford Focus is designed to raise the standard of what a small car should be with new levels of roominess, comfort, driving dynamics and safety. Combined with a bold new exterior design and an all-new chassis, the Focus is designed to give customers much more car while still providing affordability and value.

On sale in fall 1999, Focus is available in three bodystyles - a sporty three-door, four-door sedan and versatile wagon - and a choice of four series (ZX3, LX, SE and ZTS) matched to varying lifestyles.

One of the key objectives set for the new Focus was a superior package with intelligent use of space. The car's design started on the inside - around a new generation of customers, who are taller than ever before - to provide more cabin space, interior comfort and roominess. Focus' high roofline, raised seating positions, tall, wide doors, and long wheelbase work together to provide more overall interior passenger room than any major competitor.

Ford Focus also was developed with the help of a full-time ergonomics expert. As a result, due to a raised H-point (hip point center, seating positions are more upright, which results in more than 43 inches of front leg room and more than 37 inches in the rear leg room – more than three inches additional front leg room and almost one-half inch more rear leg room than the competition. The raised H-point and widely spaced seat runners also add greater foot-space for the comfort of rear seat occupants.

"Ford Focus is a fresh example of a car designed around people - with a spacious interior that reflects the increasing average height of the population," said Richard Parry-Jones, Ford's group vice president of worldwide Product Development. "In the year 2000, we expect the average male to be nearly a half-inch taller and women a quarter-inch taller than they were 10 years ago. Focus responds to

these trends by providing extra roominess and comfort that our customers require - together with a level of driving dynamics and safety technology uncommon in this price class."

Focus is powered by a choice of two 2.0-liter engines and a choice of manual or an all-new electronically controlled automatic transmission. The lightweight, high-efficiency 2.0-liter 16-valve DOHC Zetec I-4 engine delivers 130 horsepower at 5,300 rpm. Peak torque is 135 foot-pounds at 4,500 rpm.

The 2.0-liter SOHC I-4 split-port induction (SPI) engine delivers 110 hp at 5,000 rpm. Peak torque is 122 lb.-ft. at 3,750 rpm. The SPI engine has been upgraded significantly to improve NVH and reduce weight. The engine uses a siamesed bore cast iron cylinder block to increase displacement and improve NVH, with a split port cast aluminum cylinder head. Mechanical parts also have been optimized for NVH and weight, including die-cast aluminum pistons, powder metallurgy forged conrods and weight reduced valve train components. Many other structural parts also are cast from aluminum such as the structural oil pan. Powertrain noise and vibration in both engines has been reduced by as much as 50 percent compared with earlier versions.

Focus is based on an all-new platform. Thanks to a streamlined development process and a customer-centered way of operating, the platform provides attributes that combine to make Focus stand out from the competition. Among them:

- The most spacious interior in the class - with room to seat five adults comfortably

- More legroom in both the front and rear than the competition

- Stiff body structure and one of the lightest vehicles in its class - for class-leading driving dynamics.

- Independent multi-link rear suspension - for improved ride, handling, stability and NVH.

- Low-friction steering and suspension - for improved steering feel and ride
- Driver and passenger air bags as well as available head-and- chest side air bags.

- ISOFIX child-safety seat attachments in the rear - one

of the first cars to offer them.

- Components from Ford's Personal Safety System, an advanced safety belt system which includes pre-tensioners and load-limiting retractors.

- Battery saver - which automatically switches off lights

left on after 10 minutes.

- Extensive comfort and convenience features - usually found only in more expensive cars - including theater dimming, flip-up rear seat cush-

ions that "flat fold" for easy storage and large side-view mirrors.

- Focus wagon provides the largest cargo area in the class at 37.5 cubic feet.

\*Plus tax, title, destination and any applicable rebate assigned to dealer. \*\*24, 30, & 36 month closed-end lease. Rebates assigned to dealer. 12,000 miles per year, 15¢ per mile over limit. Lessee has no obligation to purchase vehicle at lease end but may arrange to purchase at a price to be negotiated with JACK DEMMER at lease inception. Subject to approval. Lessee is responsible for excess wear & tear. Payments do not include monthly use tax. To figure total payments, add 6% tax and multiply by term. Price reflects off lease incentive.
